We are joint applicants of the patent application identified above and joint inventors of the subject matter described and claimed therein. Prior to October 31, 2002, we completed the invention as described and claimed in the subject application in this country as evidenced by Exhibit A, which is a copy of slide 9 from a presentation made by Bryan Martin Hegarty at an internal conference in Buchs, Switzerland from September 10-12, 2002.
